## **GREEN CHOICES**

### **A VOLUNTARY RESIDENTIAL ENERGY PROGRAM**

Your voluntary participation in the Green Choices Program allows you to purchase a higher amount of renewable energy and help conserve our resources for future generations.

## ABOUT THIS PROGRAM

For years, ALP Utilities has brought you clean, economical and reliable electricity. When you purchase electrical energy from ALP Utilities 40% of the energy is from renewable resources. This amount is a high percentage of renewable resources but if you wish to purchase more, ALP offers you an opportunity to purchase a higher amount of renewable energy through our Green Choices Program. This program will allow you to voluntarily increase the amount of renewable energy you purchase up to 100%.

## ENROLLMENT OPTIONS

### • 100 Kilowatt - Hour (kWh) Block(s) Enrollment

This option enables you to choose a participation level that fits your needs. You can purchase “blocks” of 100-kilowatt hours of renewable energy for \$2.00 per month. This monthly cost is in addition to your normal monthly electric charges.

### • 100% Renewable Option

This option enables you to increase your renewable energy purchases to 100% of your average monthly electric usage. The cost is 2 cents per kilowatt-hour (kWh). This energy will be sold to you by calculating the nearest number of 100 kWh blocks needed. This monthly cost is in addition to your normal monthly electric charges.

I'd like to purchase the following amount of Green Choices energy\*:

- One 100 kWh block @ additional \$2.00/month
- Two 100 kWh blocks @ additional \$4.00/month
- 100% Renewable Option @ \$0.02 per kWh

Contact ALP to determine the amount of 100 kWh blocks needed.

- Other. Please specify an amount of 100 kWh blocks
