

How **GREEN** is my **COMMUNITY?**

ALP Utilities is committed to using renewable and carbon-free resources, while still providing reliable and cost-effective electricity for our community. In 2026, 33% of the electricity we sell will be sourced from renewable resources like hydropower, wind and solar. Another 16% will originate from resources that are not renewable but are considered carbon-free.

That means 49% of the electricity you use in 2026 is carbon-free.

As a public power community, we'll keep providing the power you can count on, and together, we'll shape a brighter tomorrow for future generations. That's the value of public power.

-  **RENEWABLE ENERGY**
-  **CARBON-FREE ENERGY (NOT RENEWABLE)**
-  **NOT RENEWABLE OR CARBON-FREE ENERGY**
-  **TOTAL CARBON-FREE ENERGY (RENEWABLE + CARBON-FREE THAT IS NOT RENEWABLE)**
